Tackling 2 circuit configurations newly developed skills are put to the test as drivers see if they can maximise each vehicles' capability.

Master 3 Driving Disciplines

Supercars

Drive some of the World's most desirable cars. All are savagely fast and thrilling to drive but each one requires a different approach to get the most from it.

Single Seater Driving

Inches from the ground and with no ABS or traction control, this is the ultimate introduction to professional motor racing.

Pro-Karting

Don't be fooled by their un-refined exterior, these are real 70 mph racing machines powered by 2 unrestricted 160cc Honda engines.
